English Progression Model

Content (Intent): Teachers reflect on what content is necessary for pupils dependent on their; cognitive, behavioral, physical , communication and sensory needs - targets are set to reflect this and pupils are streamed so they can access a curriculum that is specific and appropriate to their needs. The use of vocabulary is carefully considered by staff so it is not a barrier to learning. The order of teaching is based upon ensuring the most coherent acquisition of knowledge as well as empowering and inspiring pupils through development of skills linked to their EHCP. Teachers plan systematic repetition of the most crucial content to make sure it is can be used functionally across different contexts.

Activities, Expectation and Challenge (Implementation): Lesson activities are challenging to pupils academically and in regards to their EHCP targets. Personalised learning and individual outcomes linked to pupil interests ensure high expectations, appropriate challenge and pupils remember the content taught not just the activity itself. Expectations are high for all pupils developing their cognitive, behavioral, physical , communication and sensory needs. Rewards and visuals to motivate learning are used where appropriate. Ability grouping ensures pupils are being challenged and planning is sequential over time.

Assessment and Progression (Impact): Pupils make good progress by accessing appropriate content which is measured using a suitable assessment system. The curricula follows a progression model that identifies the most useful knowledge for cumulative sufficiency. Assessment checks content is remembered long term, identifying pupils that need further support. Teachers are aware of previous learning, current learning and future learning. There is a solid understanding of appropriate qualifications and future pathways , allowing challenging targets to be set.

English, Communication and Reading: Appropriate feedback is given dependent on the needs of individuals and next steps are identified. Pupils use appropriate texts to stretch learning and which create interest. Pupils widen their vocabulary at an appropriate level with support from outside agencies (SaL, Metis, Jigsaw). Pupils have a plethora of opportunities to ask and answer questions and this is supported through the; blanks model, colourful semantics and SCERTS.
