

Competition to help **NDAS** design a fresh new look for our children's service.

Are you currently running out of coloring books and things to keep yourself occupied, are you struggling to find something new to keep yourself entertained?

NDAS are here to support and help. We are hosting a competition for children and young people, allowing them to create an identity for our services that support children and young people living with abuse and to help them understand what Domestic Abuse means.

We would love your help in exploring fresh new ideas to help promote the services we offer. We are hoping for a new logo and fresh outlook for our FB page and website, and we think it would be great if you had your say.

We are on the lookout for the next young person who could help educate and inspire other young people; to understand what Domestic Abuse is and how to get the right support if they need it.

We would like to give you a little helping hand with a few ideas, such as words we stand by for our services you can include on your poster if you want to. NDAS is the ONLY essential word you must use.
