

Phase 3 Curriculum Flow [21-22]

Transition into Phase: Children transition into Phase 3 from Phase 2 following their learning pathway. The children in the phase form the Upper KS2 and Lower KS3 cohort. There is a high degree of flexibility around when a child transitions to and from Phase 3 taking into consideration the age, stage and appropriate social peer group for each child. Children continue with their personalised learning plans and build on prior learning from phase 2 curriculum as appropriate to their pathway. To ensure that transition to the phase is seamless, the children will continue to use the same visual and transactional supports where appropriate to their pathway.

Transition out of Phase: Children will move onwards to Phase 4 around Year 8/9 where they will begin their preparation for adulthood during the annual EHCP review. This is not a hard rule and there is a degree of flexibility to ensure that the children are matched for age / stage and social grouping in the appropriate phase. Children will continue their pathway where it is still appropriate and relevant to do so.
