Governor Observations and Comments			
<ul style="list-style-type: none"> • Self assessment has 6 key areas and produces an action report using a RAG system • No red areas, mostly green with 10 amber actions • Cleaswell is 90% compliant, national average 73% • Self assessment took a while to populate but now just needs to be regularly updated with any actions • David Evans has undertaken CEOP (Child Exploitation and Online Protection) training which allows him to train and educate others. • CEOP helps keep children and young people safe from sexual abuse and grooming online. • Key area that needs addressing is parental awareness. Previous parental meetings have not been well attended. A discussion took place on ways to engage parents and how DE is currently dealing with one student who has shown signs of inappropriate online activity. The parents are very supportive and work with DE who is very proactive in addressing this. • SENSO is the filtering and monitoring system currently used in school. The system highlights any words or sentences both staff and pupils use. Examples were given to show how sensitive the system is in the phrases/words picked up. 			
Single Central Record (SCR)			
<ul style="list-style-type: none"> • MS looked at the SCR with Yvonne Burns and Lauren Caisley • YB/LC explained which staff had access to and populated the spreadsheet and explained that reception staff were very good at ensuring safeguarding rules were followed asking visitors to see their current DBS certificate. • Using a checklist provided by The Key the database was checked against the criteria. 			

- The checklist was signed/dated and a copy retained electronically.

Issues to be raised with the Full Governing Body (if any)
